

September 15, 2017

Dear Bridge Members,

Recently, the credit monitoring company Equifax announced that they have been the victim of a cybersecurity incident affecting millions of U.S. consumers. The information accessed primarily included names, Social Security numbers, birth dates, addresses and, in some instances, driver's license numbers. In addition, credit card numbers for approximately 209,000 U.S. consumers, and certain dispute documents with personal identifying information for approximately 182,000 U.S. consumers were accessed.

As a precaution, Equifax will be offering free credit monitoring services to all U.S. consumers for one year. To find out if you have been affected and to register for Equifax's credit protection service, please [click here](#).

Bridge takes the security of your financial information very seriously. Bridge monitors activity regularly to ensure the safety of your accounts. However, you are still the best line of defense for detecting fraud - we encourage you to closely monitor your accounts through Bridge's Online Banking, Mobile Banking (*download our app for quick access on the go*), or our 24-Hour Audio Banking. If you notice any suspicious activity on your account, please notify us immediately.

For complete information on this cybersecurity incident from Equifax, please [click here](#).

Bridge Credit Union will never ask you to enter or say, your card number by email, text, or phone. We may call to validate charges for security purposes; however, you will not be asked for your card number and you should never give it out. Bridge takes pride in providing personalized service to our members. If you have any questions or concerns, please call us at **800.434.7300** or visit our website at www.bridgecu.org.

Sincerely,

Member Relations

Bridge Credit Union
